Ring Size Guide

Place a Credit card here to verify the page has been printed correctly to scale.

1. Print this guide on A4 paper at **100% scale**.
(Do not print from a phone it's very likely it won't print at the correct scale)
2. Place your ring over the circles below.
– Match the inside edge of your ring to the closest circle.
3. If you're between sizes, choose the larger size.
4. No ring or printer? ...Time to get a ring from Josetti
– Measure snugly around your finger where the ring will sit, using a string or piece of paper, and mark where it overlaps.
– Do not measure directly with a tape measure - it's too wide and can give an inaccurate result.
– Measure the length in millimetres (mm)
– Match that measurement to the bold EU number in the circles below.
– If you're in between sizes, choose the larger size.
